

## LIST OF CORRECTIONS

This publication has been prepared primarily by assembling and binding the maps and tabular materials originally issued in the separate PC(1)-A, B, C, and D final reports for the State. This plan was adopted in order to conserve public funds. The corrections listed below represent changes which would ordinarily have been made if this publication had been prepared by reprinting these maps and tabular materials. Those items with an asterisk (\*) consist of

errors which affect not only the specific figure(s) mentioned but also affect other data in this publication. Among the other data which might be involved are the statistics for a larger area of which the particular area is part and the statistics by such classifications as urban-rural residence and size of place. The user can, of course, carry through these types of changes if he thinks them worthwhile.

## Page 2, Map

De Soto, Manatee, and Sarasota Counties, map location J-11: Boundary between De Soto, Manatee, and Sarasota Counties incorrectly shown; for correct line, see Florida GCD map, page 5.

## Page 21, Map

Jacksonville Urbanized Area: Lake Shore division shown as Lakeshore.

## Page 285, table C-2

The nonresponse rates for "Birth date, decade unknown" erroneously exclude nonresponses for group quarters members other than inmates.

## Pages 286 and 288, tables C-2 and C-3

Delete "Note" at end of tables. Nonresponse allocation rates for family income are somewhat overstated; for a detailed discussion, see text, p. XLIII.

## Pages 303-308, table 99

Add footnote symbol 3 to the line for "Other West Indies."

## Pages 394 and 395, table 114--See page XLVIII.

## Pages 450, 456, 462, and 468, tables 120 and 121

Under "Laborers (n.e.c.)" the 15 lines from "Machinery, exc. electrical" through "Miscellaneous manufacturing industries" are indented two spaces too many.

## Page 13, table 7

Jackson County: In footnote, change figura in parentheses from 347 to 427.

## Page 15, table 8

Change 1950 population of Hacienda from ... to 115.

Change 1950 population of Gainesville North (U) from 4,290 to 5,520.

## Page 18, table 10\*

Jacksonville Urbanized Area: Delete (part) following Lake Shore division, Duval County, and change 1960 population from 10,083 to 16,021.

## Pages 41, 59, and 106, tables 19, 21, and 28\*

The number of inmates shown in table 21 for Miami Urbanized Area and for Miami Standard Metropolitan Statistical Area includes approximately 221 persons who should have been classified as "other" persons in group quarters. This misclassification also affects the corresponding number for Dade County and the State, shown in tables 28 and 19, respectively.

## Page 123, table B-2

Lake Worth shown as Lake.

## Tables 35, 37 to 44, 46 to 52, 54 to 58, 60, 61, 63 to 65, 67, 69, 71, and 91 to 93

In the chapter C tabulations for Florida, 2,110 persons (almost all males) living in group quarters that housed agricultural workers were classified incorrectly as rural-nonfarm residents. These quarters were located on farms, and hence these persons should have been classified as rural-farm residents. All chapter C tables which present data on farm-nonfarm residence are subject to this error. The overall impact is relatively minor for rural-nonfarm males, amounting to an overstatement of only a fraction of one percent; for rural-farm males, on the other hand, the understatement is about four percent. The impact of the error on the figures for particular groups or areas may, of course, be substantially smaller or greater. When this error was discovered, it was no longer feasible to retabulate the chapter C data. In the chapter D tabulations, however, the error was eliminated; and therefore, for certain subjects, correct State figures can be obtained from the appropriate chapter D tables. For corrections in chapter C table 37, see chapter D table 95; 38, see 96; 44 and 46, see 101; 47, see 103; 48, see 104; 49 and 50, see 105 and 107; 51, see 113; 52 and 54, see 115; 55, see 118; 57, see 121; 65, see 139; 67, see 133; 71, see specific subject tables listed above.

## Pages 155, 156, 193-198, and 250-255, tables 65, 76, and 86

The stub line "Husband-wife families, one earner, two children under 18 years" should read "Husband-wife families, head an earner, two children under 18."

## Pages 469-524, tables 122 to 124

On each page showing Male, Operatives and kindred workers, the line reading "Furnacemen, smeltermen, and heaters" should be changed to "Furnacemen, smeltermen, and pourers."

## Pages 469-570, tables 122 to 125

On each page showing Male, Craftsmen, foremen, and kindred workers, the line reading "Cranemen, hoistmen, and const. mach. operators" should be changed to "Cranemen, derrickmen, and hoistmen."

## Pages 620 and 623, table 131\*

During the tabulation of statistics on place of work, it was discovered that some enumerators working in unincorporated areas near large cities had failed to identify correctly these large cities as places of work (see text, p. XXXVI). In the tabulations for chapter C, a corrective mechanical edit was introduced that allocated such cases to the largest city in the same county. In some few instances, notably Armed Forces installations, the initial entries were correct, and appreciable numbers of persons living in the ring were incorrectly assigned the central city as a place of work by the edit.

(Continued on next page)

## Pages 620 and 623, table 131--Con.

Since many of these persons had reported themselves as working at home, the previous edit was expanded in the tabulations for chapter D to assign these latter cases, as well as other inconsistencies of the same type, to means of transportation not reported. The amount then by which the chapter D figure exceeds the chapter C figure for the "Not reported" category in means of transportation for persons living in the SMSA ring provides a rough measure of the amount of the error involved; that is, the amount by which the total figure in column 8 should be decreased and the total figure in column 9 increased. This number was 3,080 for the Jacksonville SMSA, 2,573 for the Pensacola SMSA, and 1,737 for the Tampa-St. Petersburg SMSA. In the remaining SMSA's in this State, the effects of the error, if it existed, were very slight. Detailed information on the characteristics of the misclassified persons is not available, but most of them were young men in the Armed Forces.

## Pages 673 and 676, table D-1

The category "Not reported in decade or year" under "Age" erroneously excludes non-responses on decade of birth for group quarters members other than inmates.

## Pages 673 and 676, table D-1

The following explanatory footnote should be keyed to the line for "Not reported" in the section on "Relationship":

Limited to persons who were allocated to the categories "Wife of head," "Other relative of head," or "Nonrelative of head."
